

HEAT for Rent!

Whayne Power Systems has added the Allmand Maxi-Heat MH1000 to our rental fleet. If you need hot air for your industrial applications, give us a call at 1-800-494-2963 and ask for Power Systems Rentals.

The Maxi-Heat MH1000 features

- Engine:** Liquid cooled Cat C1.5 diesel engine
- Heaters:** Two I.C.E. Frost Fighter IDF 500 indirect fired heaters. Up to 505,000 BTU/HR each. One 16-in. duct flange per heater. Optional insulated flexible ducting, also available from Whayne, easily connects to heater output flanges.
- Heated Air Output:** Total of 5,700 cfm from two heaters
- Temperature Rise:** 185° F (85° C)
- Operating Time:** Approximately 30 hours without refueling
- Fuel Consumption:** Engine: 0.5 gph (2.2 Lph)
Heater: Up to 505,000 BTU-3.0 gph (11.5 Lph)
- Fuel Capacity:** 191.1 gal. (723.4 L)

Portable heaters can be used for:

- ◆ Oil field maintenance
- ◆ Winter concrete construction
- ◆ Drying railroad cars after cleaning
- ◆ Material handling
- ◆ Temporary building heat
- ◆ Emergency heating
- ◆ Aircraft ground support
- ◆ Mining
- ◆ Pre-heating of equipment
- ◆ Industrial plant maintenance
- ◆ Pipeline construction/maintenance
- ◆ Winter painting
- ◆ Industrial tank coating
- ◆ Anywhere you need hot air!
